

# You're the Sweetest Card

## Card Sketch:

## Cutting Directions:

- Card Base – 5 1/2" x 8 1/2", score at 4 1/4"
- Coordinating Layer – 4" x 5 1/4" and scrap for circle greeting cut-out
- Basic White – 3 7/8" x 5 1/8" and scrap for greeting
- Various strips of Designer Series Paper ("DSP") – 1/2" wide
- Coordinating piece for inside - 5 1/4" x 4"

## Assembly:

- Using Tombow liquid glue spread a small section on the white panel. Tip: You can use the wide end to make this step a little quicker. Start attaching the DSP on a diagonal as shown. The strips should hang off the edges at this point. Continue until the full panel is covered. Turn over panel and trim edges with scissors.
- Attach to coordinating piece then to card front
- Cut larger circle from the coordinating cardstock
- Stamp the greeting on the scrap of Basic White then cut out using a smaller circle
- Bond the two circles together then add to card front with dimensionals
- Add embellishments as shown

*Notes: This is a great layout to use for your scraps, try changing up and see what you can come up with!!*
